

# Connector issue – faulty mating (1)

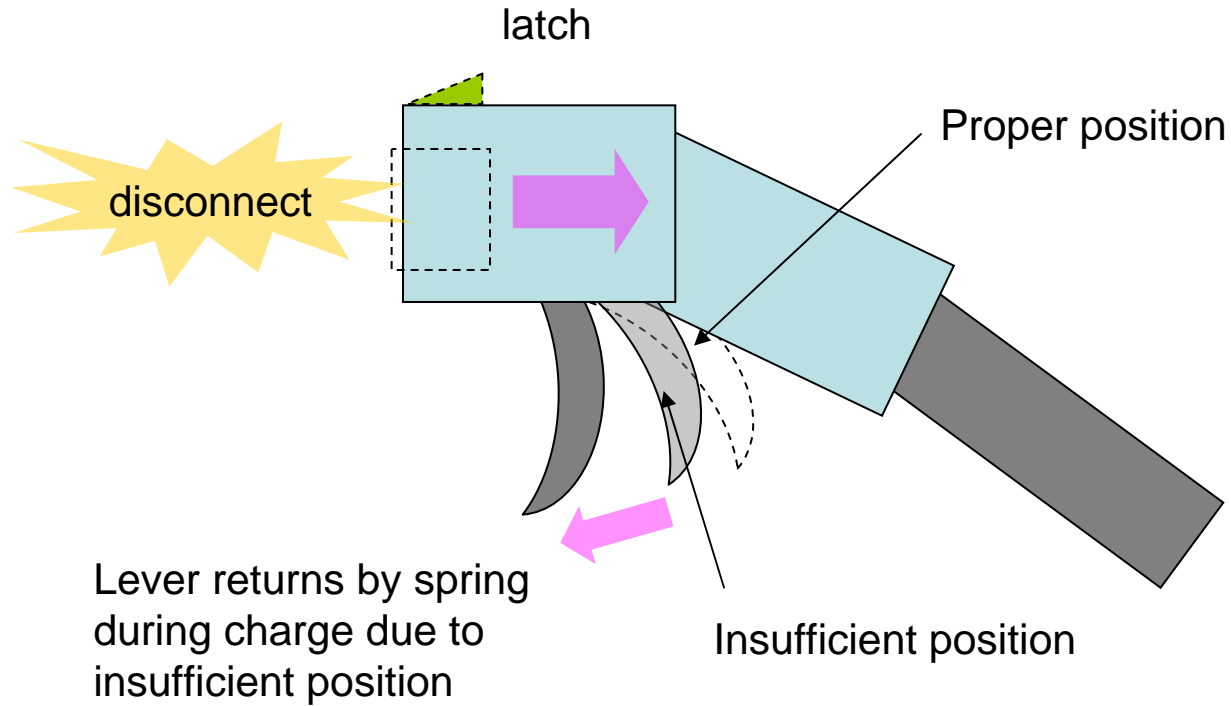

Faulty mating causes unintended disconnection of charging connector during charge. Some charger manufactures and vehicle companies report the trouble to CHAdeMO association.

# Connector issue – faulty mating (2)

# Connector issue – faulty mating (3)

# Connector issue – faulty mating (1)

CHAdeMO association starts to talk this issues with connector manufacture

Interim measures

- Caution labeling
- Lever support-band, etc.

Concrete measures

- Under discussion
