## CHAdeMO Specification

## IEC Standards

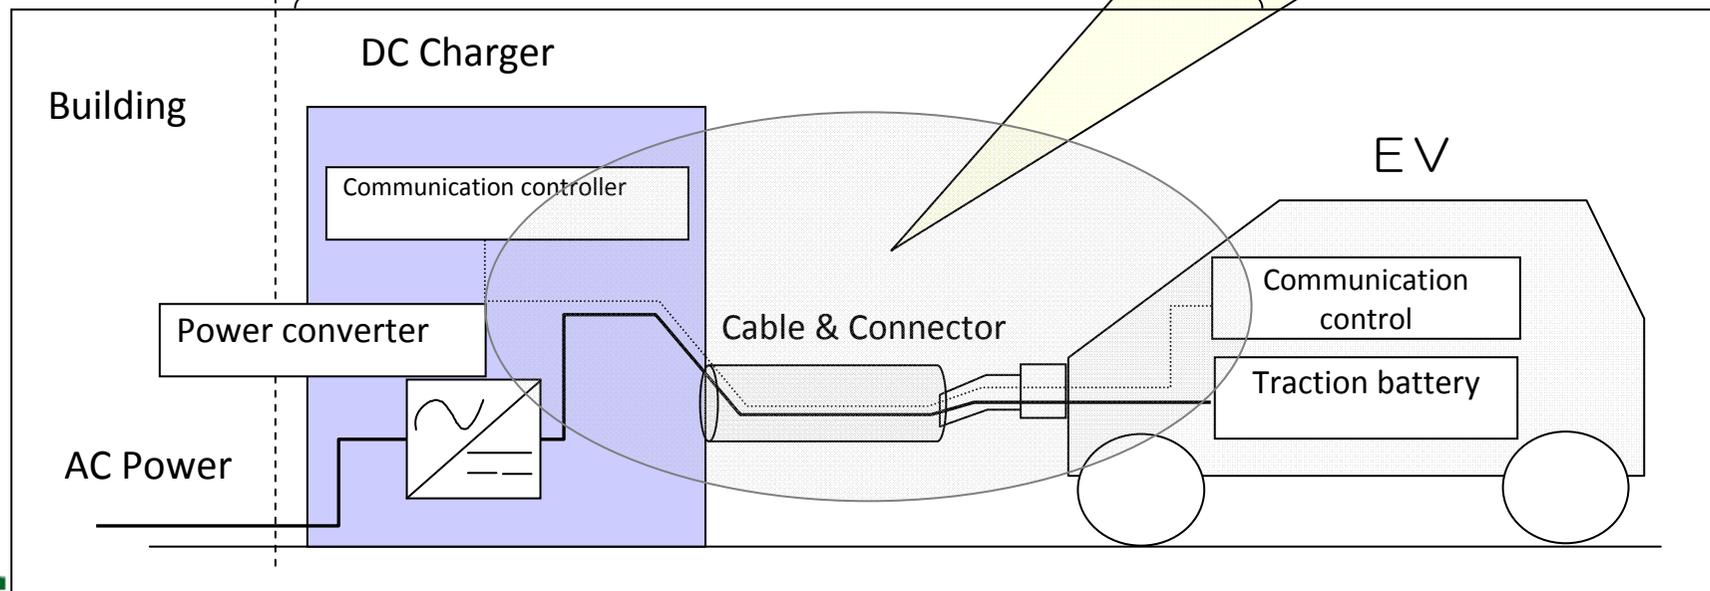

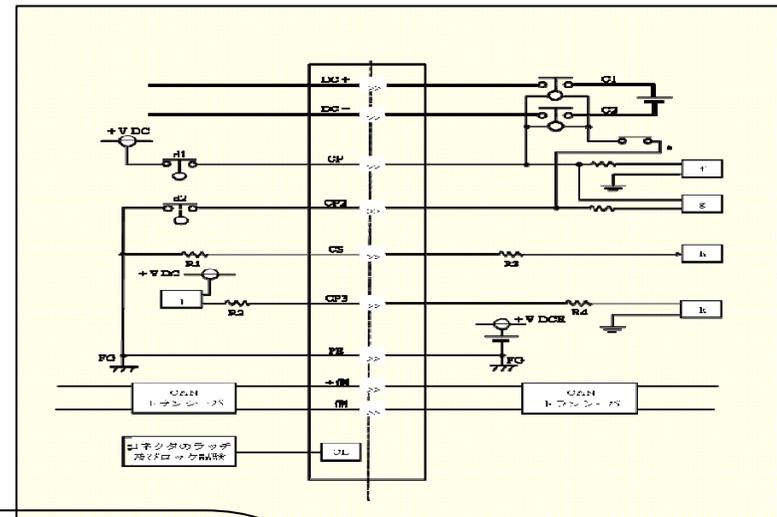

# 61851-23 DC Charging Station

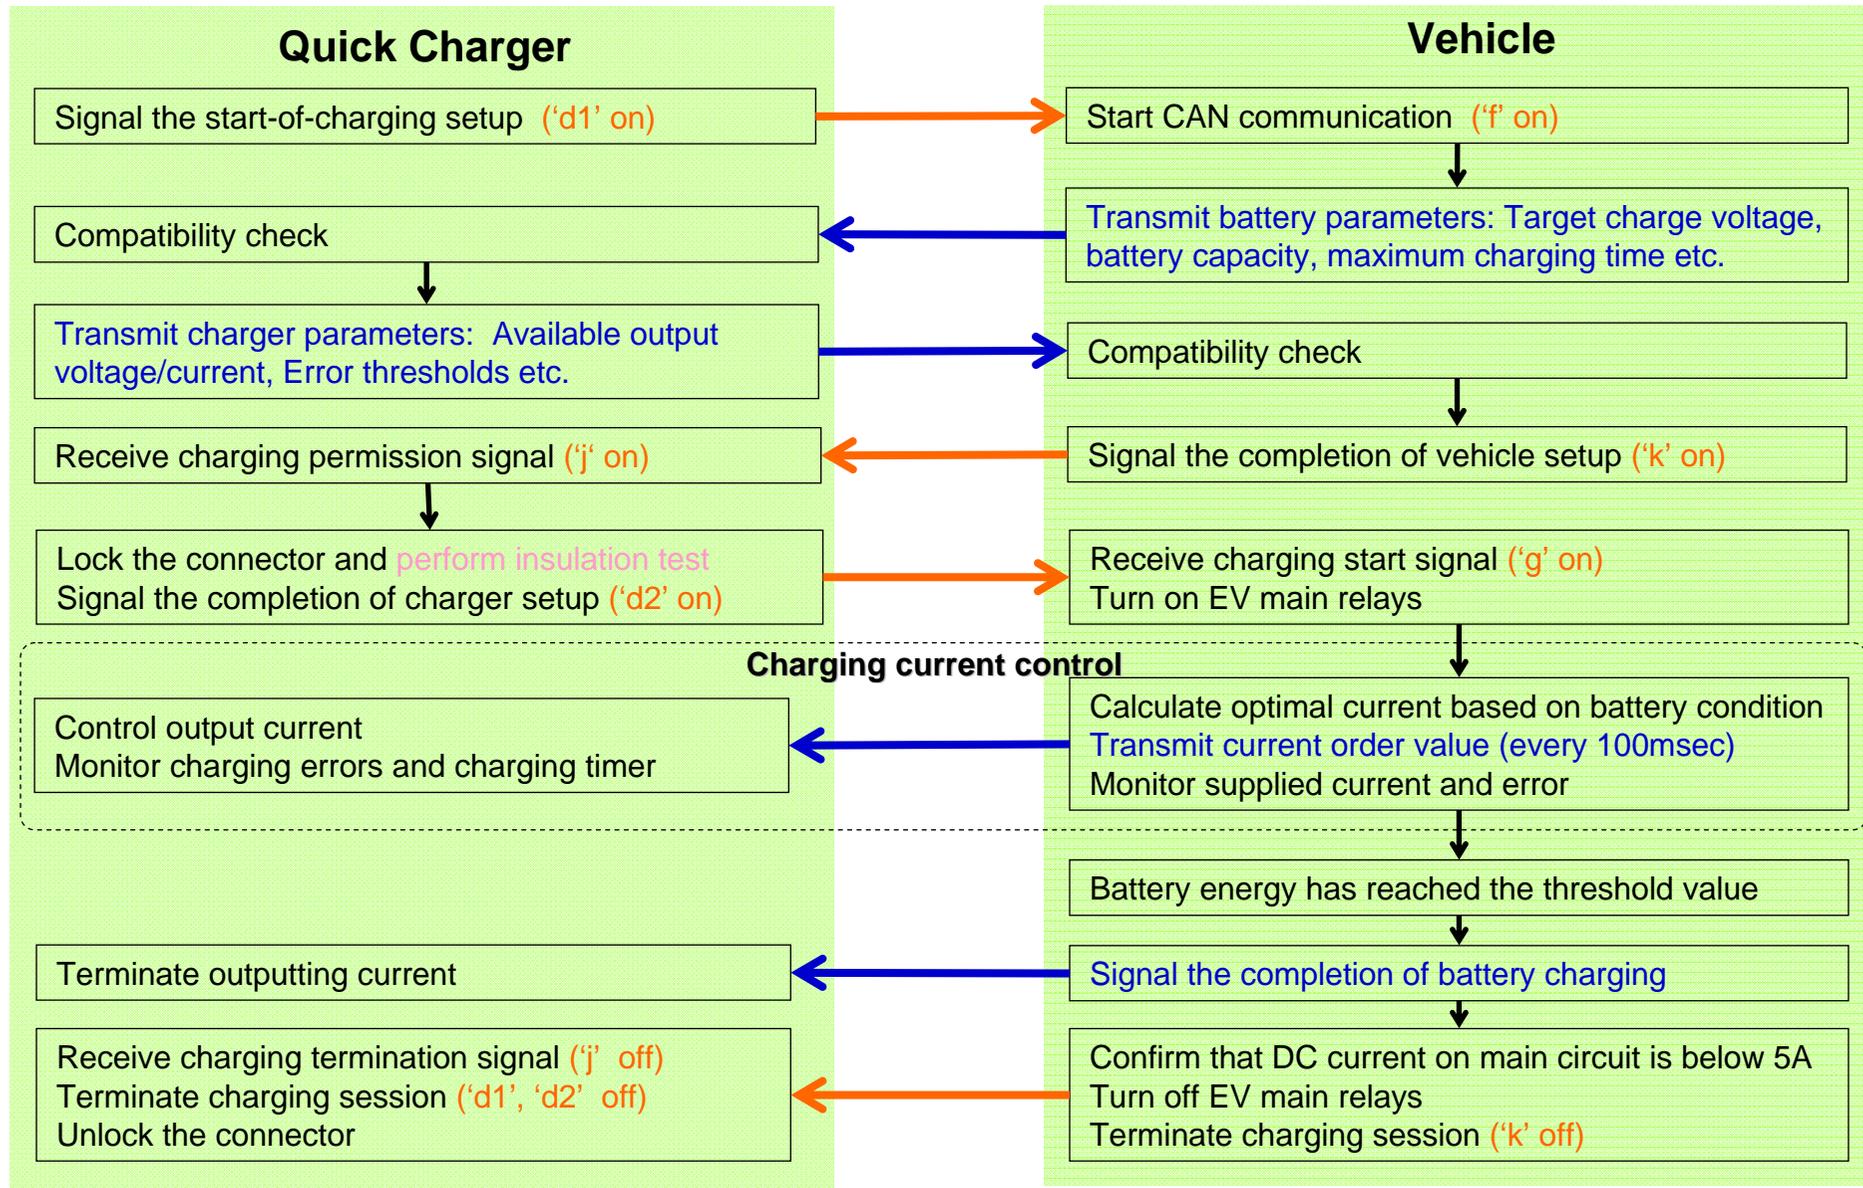

Master standard of DC charging master standard

- Requirements and measures for Electrical safety
- Necessary functions for charging
- Charge performance
- Specific system requirements  
(61851-24 specifics digital communication.)

CHAdeMO interface as System A

# 61851-24 DC Communication Protocol (System A)

Control signal line, CAN communication

# 62196-3 DC Charging Vehicle Coupler

	Configuration AA CHAdeMO (Japan) (System A)	Configuration BB GB/T (PRC) (System B)	Configuration EE COMBO 1 (US)  (System C)	Configuration FF COMBO 2 (DE)

## « Mass Production Phase »

- Improved Durability
- Improved Visibility

## « Overseas Deployment Phase »

- Safety Feature improved
- Durability improved
- Mis-operation prevention feature added

## « Further Improvement through competition »

- Supplier increased
- Operability improved

## « The maturity of technology »

- Performance confirmation
