

CHAdEMO All-Member Meeting 2025

◇Panel Exhibition

2025/6/30

Company Name	Title	Exhibition contents
Keysight Technologies	Scienlab Charging Discovery System (CDS)	An analyzer that visualizes EV-EVSE charging status and verifies interoperability https://www.keysight.com/us/en/product/SL1040A/sl1040a-series-scientlab-charging-discovery-system.html
KIKUSUI ELECTRONICS CORP	EV charging/discharging multipurpose controller KEV	Introducing the KEV series, which has a flexible system configuration and a wide range of functions and can be used for rapid charging/discharging, normal charging, V2H discharging, and charging checker for EV vehicles
Sanyo Trading	Battery diagnostic device for EV/PHEV ETX010	By using this device and a smartphone or tablet, you can easily diagnose the degree of deterioration of EV/PHEV batteries, known as SOH (State of Health), based on a unique algorithm, without the need to remove or charge/discharge the battery.
StarCharge Energy Japan	CHAdEMO-Certified, StarCharge Ready for Japan	StarCharge EV Chargers Accelerate Japan's Zero Emissions Goal
Stäubli	Providing connector solutions for E-mobility	QCC (Quick Automatic Charging System), MCS (Megawatt Charging System / Quick Manual Charging System), ZeroBolt (Busbar connection automotive connector that realizes zero volts), PerforMore (600A DC connection high voltage automotive connector), CombiTac (Modular connector), Quick coupling for water cooling circuit (No dripping, no air trapping)
SHINDENGEN ELECTRIC MANUFACTURING	Quick charger SDQC2F series	Standard machine for the widespread use of infrastructure
SUMITOMO ELECTRIC	Cable with connector for 1000V compatible quick charger	A next-generation connector that supports up to 400kW and is lightweight for ease of use
TAKIGEN	EV holder and cable management for quick chargers	Displaying support fixtures for charging operations
dSPACE Japan	Smart charging solution	HIL simulation environment for validating charging controllers
TUV Rheinland	ETAC Nagano Lab Introduction	It is possible to test the CHAdEMO charger by supplying a 500kVA power supply.
Takaoka Toko	SERA, SERA-400	Explanation of our new charger brand SERA Display of SERA-400 (400kW high-voltage charger)
TOYO Corporation	EV charging analyzer/simulator, EV charging evaluation service	Products and evaluation services that can evaluate various EV charging protocols
TRUST COMPONENTS	Introducing SamWoo products	CHAdEMO connector 125A product (new IEC62893-4-1 compliant cable product, current product) and 200A current product, three types, product introduction
Nissan Motor	Nissan Biz Connect API	New service that expands the business possibilities of customers by linking Nissan's real-time vehicle data with external parties
Japan Energy Components	EV connector	EV connector
PUES	CHAdEMO Interface	In-vehicle controller compatible with EV quick charger (CHAdEMO)
Vector	EV solutions provided by Vector	In addition to charging communication analysis, it also supports HIL testing using the CANoe Test package and HIL hardware. https://www.vector.com/int/en/products/solutions/e-mobility/
UL Japan	CHAdEMO related services	CHAdEMO certification for QC, V2H, etc., CHAdEMO matching test center

◇Vehicle exhibition

Company Name	Car Name	URL
TOYOTA	RZ450e	https://lexus.jp/models/rz/
Nissan Motor	ARIYA B9 e-4ORCE	https://www3.nissan.co.jp/vehicles/new/ariya.html
Hyundai Mobility Japan	IONIQ5	https://www.hyundai.com/jp/ioniq5
Honda Motor	N-VAN e:	https://www.honda.co.jp/N-VAN-e/
MITSUBISHI MOTORS	OUTLANDER PHV	https://www.mitsubishi-motors.co.jp/lineup/outlander_phev/
