## CHAdEMO ANNUAL MEMBER MEETING 6

Dear CHAdEMO Europe Regular Member,

Yet another year has passed, CHAdEMO is closing in on 10,000 connectors globally, EV sales are growing, a new version of the protocol is being launched - it's time to give you updates on our activities. As the tradition has it, we are hosting CHAdEMO Europe Annual Member Meeting 2015, this time on 20<sup>th</sup> October at eCarTec grounds in Munich, to which you are cordially invited.

EVs are becoming more and more mainstream and accompanying this, the European e-mobility market is undergoing profound changes. With this in mind, CHAdEMO Europe, faithful to the association's founding principle of responding to the market needs, invites you to an important **afternoon** discussion about our place in this changing landscape.

Our session will open with a presentation by a guest speaker from **Allego** on their 'lessons learned,' followed by our new Secretary General of CHAdEMO Japan, Dave Makoto Yoshida who will share with us the Association's global strategy and to lead the discussions. Presentation of new members and updates on European developments will follow.

Continuing on the work being done by the European Technical Work Group online, we are also hosting a **morning Technical Session**, during which our Japanese experts will discuss the most pressing technical issues as well as a road map of CHAdEMO technical development.

We are looking forward to seeing you in Munich!

*Your CHAdEMO Europe team*

### DATE & TIME

Tuesday, 20 October 2015 at 9:00 till 18:00

### VENUE
